

SiteCloud Mobile

Your Jobsite in the Palm of Your Hand

The Sensera Systems SiteCloud™ platform is now available as a dedicated app, making the jobsite even more accessible than ever before.

SiteCloud Mobile provides the same easy-to-use layout you're already used to, with the familiarity of a purpose-built app that leverages the power of your handheld device.

Available for Apple & Android Devices

Download on the
App Store

GET IT ON
Google Play

EASY

Check in on your jobsite in real-time with all the same great features you're familiar with.

FAST

Respond to jobsite questions, issues and LEM logistics in a fraction of the time.

FREE

The SiteCloud Mobile app is free for all Sensera Systems SiteCloud users.

SitePOV

Your Site Camera in Your Pocket

When you need to extend your site coverage, SitePOV provides the flexibility to capture accurate, timely, as-built photos of your construction project. Users can easily capture images with their mobile device's camera and they will be automatically uploaded and organized instantly in your SiteCloud account alongside your other Sensera camera images and video.

SMART

All images automatically time-stamped and 6D geo-referenced.

FLEXIBLE

Capture additional viewpoints around the project for progress monitoring.

INTEGRATED

Align SitePOV Captured images with fixed camera images.

Harness the Power of the Sun with SenserAlign

Position your camera's solar panel for optimum sun exposure with SenserAlign. Simply download the app, place your smart device on the solar panel bracket, and follow the on-screen instructions to best orient your solar panel.
